

## BRIEF INFORMATION

### 90 MM LED MODULE L4060

- For diverse applications and the highest demands
- Ongoing expansion of the 90 mm module range
- Maximum design and technological freedom thanks to modular system
- More illumination and safety with innovative LED technology

## PRODUCT FEATURES

- **Striking design**  
Ring-shaped homogeneous daytime running light/position light
- **Conversion**  
Existing halogen versions can be easily converted to LED modules (compatible installation solutions)
- **90 mm LED upgrade**  
All lighting functions available with LED technology for maximum design life
- **Design**  
40 x 60 mm polycarbonate lenses for varying light distribution as fog light, high beam and fog light with cornering light
- **Housing**  
Sturdy die-cast aluminum housing with integrated electronics
- **Resistant to stone chippings**  
Polycarbonate cover lens
- **Weight saving**  
Polycarbonate lens

**coach&bus**  
Sustainable mobility

**Award** for our 90 mm L4060 LED modules at Busworld 2013

## FURTHER RANGE ADVANTAGES

Millions of 90 mm module headlights prove their worth daily under tough conditions. Our range currently includes a total of 5 series with an extraordinary number of varieties (Classic, Performance, Premium, L 70 and L4060). The new L4060 LED product group gives designers new degrees of freedom, made possible by a new form of lens (40 x 60 mm) as well as the colored lens openings!

### Give your vehicle a striking look!

The design of this new headlight is very compact, but allows for three light functions to be realized in one module without additional electronics.

### Drive 20 times around the world without needing to replace the bulb.

- Bulb replacement has become a thing of the past.  
No maintenance due to passive cooling.
- No moving parts are necessary (e.g. a fan)
- Low fuel consumption and reduced CO<sub>2</sub> emissions due to the low power consumption of max. 20 W on high beam
- LED headlights improve safety. The light color is similar to daylight, improving vision and ease of driving (drivers do not tire as quickly)
- Multi-voltage (12 V, 24 V)
- ECE and SAE type approval

### Upgrade to LED

HELLA is currently the only provider that can offer you conversion to LED light technology for all 90 mm single and multifunctional modules in halogen and xenon.

#### Main LED light functions

Low beam

High beam

Low beam and high beam

High beam and daytime running light

High beam and indicator

#### Auxiliary LED light functions

Fog light

Fog light and cornering light

Fog light and daytime running light

Daytime running light

### 90 mm configurator:

[www.hella.com/90mm-modules](http://www.hella.com/90mm-modules)

This tool shows you the options for equipping or upgrading a vehicle with 90 mm LED modules. See shots from Europe's biggest light testing facility and compare the light distribution of halogen and LED modules, in order to help you make the right choice for your application.

# TECHNICAL DETAILS

Technical Data		
Operating voltage	Multi-voltage 9 – 33 V	
Functions	High beam, fog light, daytime running light, position light and cornering light	
Electrical connection	Integrated 4-pin FEP plug; adaptation to DEUTSCH plug available	
Specification*	HELLA Norm N67101 1.2 Car Premium / 3.2 Caravan Premium / 4.1 Bus / 6.1 Truck / 7.2 Agro Plus	
Type approval	<b>ECE</b>	<b>SAE</b>
High beam	ECE-R112 S01	SAE J566, FMVSS108
Fog light	ECE-R19 F3 Serie 04	SAE J583
Daytime running light	ECE-R87	SAE J2087
Position lamp	ECE-R7	SAE J222
Cornering light	ECE-R119	SAE J852

\* A HELLA 3A fuse must be used for all LED headlights. A fuse of >3A is not sufficient to safely interrupt the power supply in the event of a fault. In the case of unknown protection, an external safety switch (e.g. 8JD 743 557-021) must always be used. If water gets in, incorrect protection can lead to damage ranging from melting to burning of the product.

## Technical Drawings

90 mm: L4060 high beam/fog light  
With pre-mounted carrier frame

90 mm: L4060 high beam  
Performance module mount for 1:1  
conversion of existing halogen versions

90 mm: L4060 fog light and  
cornering light  
With pre-mounted carrier frame

## INSTALLATION

\* Minimum installation distance from vehicle body:

- 1) 10 mm all round (at the cover lens)
- 2) 20 mm all round (at the housing)

The modules are designed to work without a fan since passive cooling and adherence to the minimum installation distances ensures perfect thermal conditions for operation.

## APPLICATION EXAMPLES

# RANGE OVERVIEW

Product photos	Description	Mounting concept	Part number
	<b>LED spotlight L4060</b> Module headlight with 40 x 60 mm polycarbonate lens, Sturdy die-cast aluminum housing, Silver design cover, (black design cover on request)	Pre-mounted carrier frame	<b>1F0 011 988-021</b>
